

APPLICATION AREA

- Violet calibration hose is used in pipelining installations in the so-called open-end method to press an impregnated liner onto the walls of the pipe to be rehabilitated
- Installation maximum 90° bends
- Also suitable in the manufacture of glued open ends
- Protects the liner in the free space from sharp edges of the pipe
- Prevents excessive swelling of the liner in free space
- **Always use over the liner in the free space to prevent excessive swelling of the liner**

TECHNICAL INFORMATION

- Tensile strength (seam): 43 N / mm²
- Tensile strength (material): 59 N / mm²
- Material: PVC
- Application area: DN 50 - 200 mm
- Installation pressure: max. 0,5 bar
- Heat resistance: max. 50 °C
- Weight: 407 g / m²
- Color: violet
- Pack size: 100 m / roll
